

Rosengrens Polaris

Fire protection of datamedia

Rosengrens Polaris is the new generation data media cabinets, tested and certified to withstand a fire for 2 hours. Rosengrens Polaris offers a maximum capacity in the minimum of space with an extensive range of interior fittings which ensures that different sizes and types of data media can be mixed and stored efficiently. The focus being on storage of CDs and DLT magnetic tapes. The cabinets are available in 5 different sizes and are all equipped with a bolt work that gives a good burglary resistance. Choose between key lock, combination lock or electronic lock. Dual locking is also possible.

D320	1946	746	717,5	1600	490	400	645	321		
D570	1946	1036	620	1600	780	450	825	574		

Fire protection: The Rosengrens Polaris series has been tested and approved to EN 1047-1 and certified by ECBS to the fire resistance of SI20 DIS, which means 2 hours' fire protection. The range also holds an American UL certificate to the Class I25 2 H with fire and impact, which means 2 hours' fire protection.

Lock: Various lock options are available, Rosengrens key lock RKL-10, combination lock and electronic lock in different levels. All locks are tested and you can choose between single or dual locking. With the heavy locking bolt work the cabinets have a good burglary resistance.

Design: The design is functional and elegant with a light colour scheme, built-in hinges and a functional handle with push and seal closure as standard. Thanks to the cabinets smaller external dimensions in relation to capacity the cabinets blend in well with most environments.

Quality and environmental management systems: The Rosengrens Polaris series are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14000 environmental management system.

Quality control: Rosengrens Polaris has been developed and continuously tested according to the Gunnebo Quality Guidelines which include several criteria relating to existing European norms with the aim of guaranteeing quality and assuring customers that the products live up to the highest expectations.
