CS 284 Data Cabinet

The CS 284 carries the ECB.S S120 DIS 2 hour fire test label complying with the most stringent international fire testing standards and with European Standard EN1047-1. Test involves:

- Furnace 'Shock' Exposure – placed into a furnace and subjected to temperatures of up to 1049°C
- The unit is then subjected to a drop test of 9.1m and reheated
- Furnace cool out as latent heat is still present within the unit
- Continuous monitoring of the temperature throughout cool out period

Other features

- Key and Combination lock as standard – other locking options available
- Non-retracting key ensuring cabinet must be locked before removal of key
- Wide range of fittings to suit many types of media
